

# BACK TO SCHOOL

STACY IEST HSU

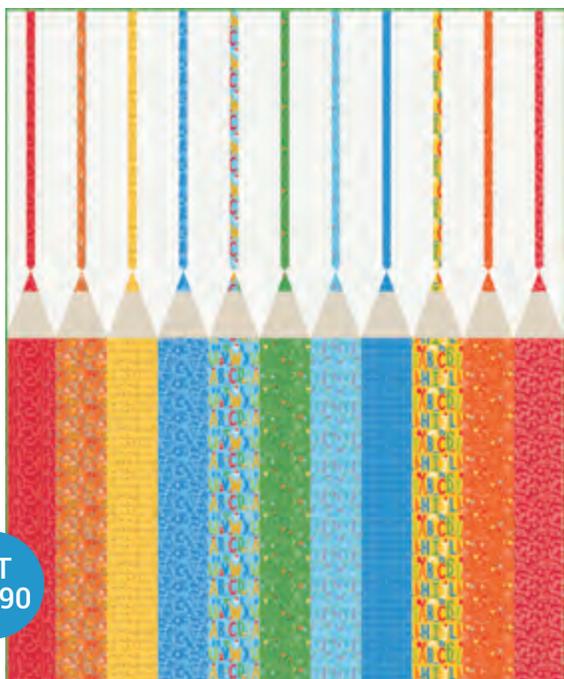

What better way to make learning fun than with bright colors and fun school supplies? When creating Back to School, color and fun were a must. Back to School celebrates all things “school,” like writing, science, math, and – my favorite – arts and crafts. In addition to all the fun prints, the Back to School collection also has a super-cute monkey backpack and the sweetest little banana zipper pouch panel.

This collection is sure to make going back to school a whole lot more fun.
