

Sarah Watts was inspired by all things fiber arts when creating Purl. She imagined a cozy afternoon in a favorite chair, sipping a steaming cup of tea and working on her latest yarn endeavor. Sarah created one of her popular panels (see pages 12-13) as a focal piece and added lots of sweet supporting prints. 'Charms' features small motifs that can easily be cut apart and used as project labels. Two rayons and three cotton-linen canvases round out the group. **See the Purl Panel on the following spread.**
